LeBron James Urban  
Achievers Award 2022

GETS: 1982FH1

# Why NFT badges for Web3?

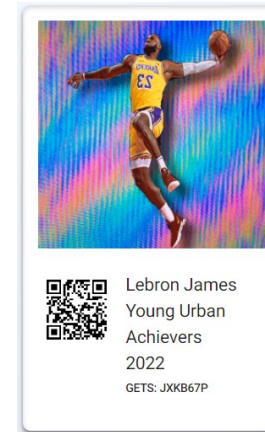

Current 'state of the art' VS. Web3

- Badges rely on an "issuing authority"  
*WEB3 is Permissionless and decentralized*
- Badge data is controlled by a third-party  
*WEB3 users own their own data and the 'keys'*
- Badge designs are boring and corporate  
*WEB3 engages the entire creator economy*
- Digital credentials have no tangible value  
*\$GETS NFT Badges can hold digital assets*

Old

New

GETSMART NFT Badges, *New and Improved!*

# Say hello to my little friend. \$GETS NFTs

- Permissionless, decentralized creation and issuance of digital badges
- Transparent philanthropy and innovative educational giving
